THIN BLADE SLITTER SCORER

Model BFY

DESCRIPTION

BFY Thin Blade Slitter Scorer can do pre-creasing, slitting and creasing in one time, adopts novelty thin edge high speed paper cutting, it is easy to operate, suit for different requirements.

Slitting part, adopt high quality tungsten steel blade, sharp and long work-life, slice more tidy, non-pressing and non-burr.

It adopts manual and automatic grinding, auto-grinding can be realized in the production process, non-stop machine, pneumatic control grinding, set the interval meter and the grinding time at any moment.

CHARACTERISTICS

- Pre-creasing feeding wheel insures corrugated sheet not damaged after creasing.
- 1.2 mm thin edge slitter with both automatic and manual grinding.
- Total eight shafts: first is pre-creasing shafts, second is slitting blade shaft, third is rubber transmitting roller, fourth is creasing wheel shaft.
- Pre-creasing is top shaft with pre-creasing wheel and bottom shaft wrapped with rubber.
- Creasing wheel is male to female type.
