

PNSHAR

Electronic Balance

PN-JA

Electronic Balance

PN-JA

Description

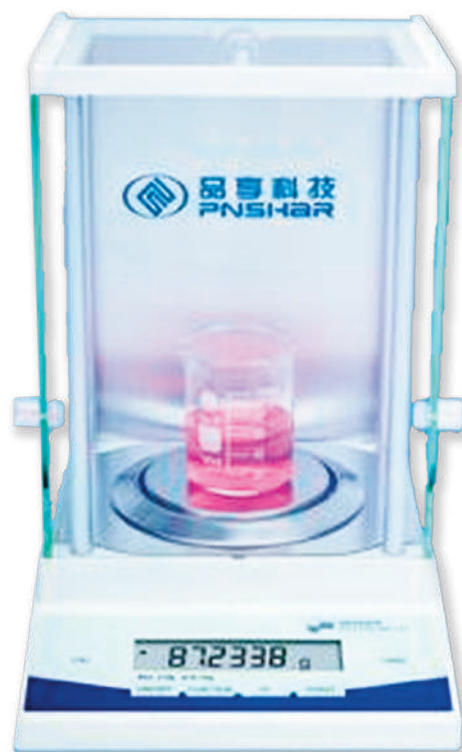

The PN-JA Electronic Balance is designed to weight the paper, cardboard, etc.

Intelligent performance for applications that require extreme accuracy.

Ingenious manufacturing to improve the use.

Applications

It is an ideal auxiliary test equipment for industries and departments such as papermaking, packaging, scientific research and quality inspection.

Specification

Specification	
Measuring range	0-200 g
Accuracy	0.001 g
Size of weighing pan	80 mm
Outer dimensions	365 x 330 x 215 mm
Power supply	AC220V, 50Hz
Communication output	RS232C

BOX

 120 Vantis Drive, Suite 300, Aliso Viejo,
CA, 92656
