## SEMI-AUTOMATIC PRE-FEEDER

Model DX-1226B

## DESCRIPTION

The AMC DX-1226B Semi-Automatic Pre-Feeder is used for leading edge equipment, such as Flexo Folder Gluers, Flexo Printer Slotter, Die Cutter, etc.

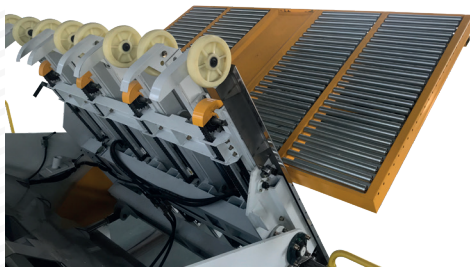

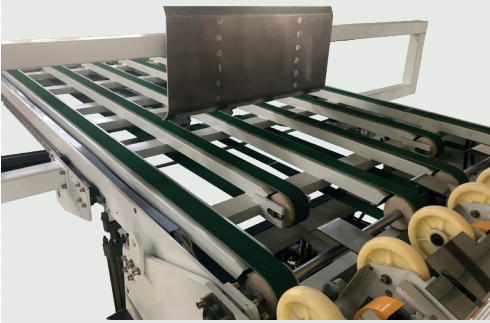

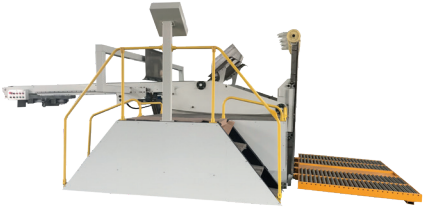

Can match the speed of 100-300 sheets/minute.

## CHARACTERISTICS

- PLC control.
- Top and Bottom operation mode.
- Hydraulic driving lifting and transmitting.
- The whole auto feeder can move on rail.
- Stacker lifting automatically as per sheet stacking height.
- Feeder part lifting automatically as per sheet stacking height on lead edge feeder.
- With sheet tidying device.
- The performance is stable, 2 sets of hydraulic system with the current specific effect are adopted, and the height of the conveying bed is adopted by adopting the two hydraulic systems which are mature by the current specific effect.
- The hydraulic cylinder provides power, is large in output, is stable and durable, the space is small, the torque is large, and the conveying is uniform.
- Simple operation, the button and the touch screen man-machine graphical interface, PLC control, easy to identify and convenient operation, real-time display. Shows the status of the work.

<i>Technical specifications</i>	
<i>Model</i>	<i>DX-1226B</i>
<b>Max. Machine Speed</b>	300 Sheet / Min
<b>Suitable Working Speed</b>	180-250 Sheet / Min
<b>Max. Sheet Size</b>	2200 x 2800 mm
<b>Max. Stacking Height</b>	1800 mm
<b>Max. Stacking Weight</b>	1500 Kg
<b>Sheet Lifting Drive</b>	Hydraulic
<b>Sheet Stacker Turning Drive</b>	Hydraulic
<b>Sheet Transmitting Part Lifting Drive</b>	Hydraulic
<b>Transmitting Belt Driving Motor</b>	Hydraulic Motor
<b>Motor Brand</b>	Siemens
<b>Total Power</b>	10 KW
<b>Weight</b>	3000 KG
<b>Machine Dimension</b>	4500 x 4500 x 1800 mm
